No. 1 / SUMMER 2014

PRESIDENT REPOULIS MESSAGE

This spring and June left hastily with lots of rain, and now we are in the middle of a hot summer, with so many celebrations of saints, festivals and events that we struggle to find time to follow. A good Arahovitis however, whether resident or Athenian or living abroad, do not forget to focus on the events of the village. Except from the entertainment, someone will encounter familiar places, the family home, relatives, childhood friends, old acquaintances, recalling from the inside the nostalgic memories of the good old days.

The Association has long shed the weight of the renovation of the building in the central square. In collaboration with a design bureau, it considers the best solution for its interior and for the optimal recovery of the external facades of the building. The S.A.K. seeks the help of all those who can contribute to our effort, so the building will become the jewel of the village.

This year, as always, defying the crisis plaguing our country, I am confident that everyone will honor with their presence, the multifarious manifestations of Karyes' Clubs, the fest of Agia Paraskevi and St. Panteleimon, the dance fest of S.A.K for the reinforcement its purposes and the old plane in the Agios Andreas square.

There will be the meeting place for us.

Let's not miss it.

A good Arachova summer!

THE DIGITIZATION OF THE NEWSPAPER "KARYES" HAS BEEN COMPLETED

The newspaper "Karyes, Arachova Laconias and villages of former Oinountas Municipality" began to be issued in **October 1986** and continued seamlessly for 24 years, until **May 2010**, where the publication stopped at the 99th sheet. The newspaper began its issue monthly, to become a bimonthly and later a quarterly, so as to be able to cover more material.

It was the personal vision and passion of **Mrs Annita Glekas-Prekezes**, which after much thought decided the edition of a local newspaper. The objective of this newspaper was to inform the villagers and the compatriots, who were abroad, on the current cultural and social news, while enriching the contents with themes of history, folklore and culture, both of Karyes (Arachova), as of the wider Laconia's region and the surrounding villages.

Mrs Glekas-Prekezes, with much love and effort, was able to collect the news of the village, while keeping the contents of the newspaper away from political expediencies. Although the newspaper was for subscribers only in order to cover the expensive printing costs, its impact reached all five continents, thanks to the thirst of our compatriots for news from their country and their place of origin.

The idea for the digitization of the Journal "Karyes" was conceived jointly by the siblings **Harris and Margie Konstantopoulos**, as they tried to gather information to enrich the Karyes Laconia's web site (www.karyes.gr). Therefore, they studied the preserved archive of the newspaper held by their mother, **Kaiti Konstantopoulou-Kardara**.

According to them, the objective of digitization was to maintain the archives in time, considering the wearing of the sensitive material of paper. Moreover, their desire was to ensure the availability of its valuable contents at an even wider audience through the Internet, as the newspaper, when it was published, it was for subscribers only and many compatriots (especially the younger generations) didn't have access to this rich source of information about the place of Karyes and the surrounding villages.

The idea was welcomed by the members of the Board the S.A.K. and Mrs. Annita Glekas-Prekezes accepted the proposal of the digitization of the newspaper and she contributing to the completeness of the archive. The project was completed in the summer of 2014 and posted via www.karyes.gr as a separate node, called the **Digital Archive of Journal "Karyes, Arachova Laconias and villages of former Oinountas municipality"** to fulfill the purpose for which it was created.

A TOURIST MAP PUBLICATION

At the initiative of our Association and with the collaboration of the Karyes' Cultural Association and the Athletic Association "The KARYATIS", a detailed double sided (foldable) Karyes' touristic map will be issued. The development of tourism in recent years requires the creation of a map so the visitors of our beautiful village could have a comprehensive guide to hiking and bike paths. The number of copies at this first phase will be 10,000 pieces and there will be a free distribution.

The S.A.K. invites all the residents of our village to advertise their businesses.
