BEAUTIFUL AND BURSTING WITH LIFE THE SUMMER IN KARYYES

Another lovely summer passed at the beautiful village of Karyes. All the "Arachovites//Karyates" living in big city centers managed to spend some time during their vacation in the place of their ancestors. Many of them, expatriates visiting their motherland. Others, visitors from nearby cities and villages who often come to our village as it is considered, owing to its natural beauty, monuments, hotels, cafes, and restaurants, to be the liveliest resort in the area and the ideal place for a day trip. Green and picturesque, the village was ready and the locals were more than happy to welcome them. It was a pleasure for everyone to host them.

This summer, though cool and breezy due to the unprecedented rainfalls that occurred mainly in July, was stigmatized by the devastating wildfires in eastern Attica, where many people lost their lives. In the face of such disaster, it was decided by the Municipality of Sparta to cancel all the festivals (panigyria) that coincided with the three-day mourning ordered by the Greek government between July 24th and 26th. The decision was well respected by the businessmen of the village, although they had already made the necessary preparations for the Feast of Aghia Paraskevi, planned to take place on July 26th in Rachi. After careful consideration and much thought, it was decided that the Feast of Aghios Panteleimonas at the main square would take place as planned on July 27th, as many expatriates were visiting our village those days, some after a long time, especially for the festivals, which aim not only to the fun but to the pleasure of meeting and celebrating with beloved ones, as well. At the same time, it would not be an exaggeration to say that during the week of August 15th, the village was bursting with life; all houses were filled with people, and the hotels were almost fully booked.

The retired teacher with the gift of his old pupils

reunite almost 50 years after we graduate from the Karyes Primary School. We remembered the past and we exchanged memories. No one can imagine what is engraved in each one's memory.

Greetings to all who managed to come to those who could not. We remembered all of them from the photos and the list. Good luck to everyone and we expect to see you all in 10 years in the same place".

KARYES CHURCH COUNCIL / TEAM OF VOLUNTEERS

On **Sunday July 11th** at the Karyes Community Hall there was a “coffee meeting” and a presentation from the **voluntary team for the support of the Karyes Church Council and the preservation and reconstruction of the Village’s churches**. As you may understand by reading the above report, it is a beautiful initiative and therefore we publish the speech of its member **Ms Panaghiota (Pitsa) Kyriazis**.

Your Reverence, dear President, dearest expatriate compatriots, ladies and gentlemen, we would like to welcome you all and express our sincere thanks for your presence today at this meeting, the reason of which is to inform you of who we are and what we do.

Our group consists mainly of women, and has the full support and assistance of the male population of the village.

HOW WE STARTED

It has always been our favorite summer pastime to meet at the village main square and have discussions over different issues, but it is common knowledge that the conversations always end with complaints about everything we can think of, from the government to the civil services, to things going from bad to worse. Eventually, in the course of those gatherings, we started to think about what we can do and how we can help to improve things. We concluded that a sector that is closely tied to our traditions and history and needs support is the church; churches and chapels that over the years have been abandoned, more or less, and at risk of suffering severe irreversible damages.

We started our initiative last year and today, we are in the pleasant position to present you the small but important outcomes of our effort, which we could not even imagine would be successful. Nevertheless, we must acknowledge the fact we owe this success to the village residents as well as the expatriate Karyates who supported us, both financially and morally, keeping their doors open for us. Their collaboration gave us strength and encouragement to continue our work.

We have undertaken the task of cleaning and decorating the church interiors as well as the courtyards, on our own expenses, to save money in our funds. We clean the church on the eve of the celebration, to be in impeccable shape on the day of the feast. At the same time, we have undertaken the organization of the lotteries, traditionally taking place during church celebrations, in order to raise money, as a form of revenue, for any upcoming expenses.”

WHAT HAS ALREADY BE DONE

We are going to present the work done for each Church.

I. AGIA KYRIAKI

In one year grace at the drawings and micro-donations, we gathered the sum of approximately € 5,000- and almost entirely consumed for the repair of Agia Kyriaki that was about to collapse.

The Works in detail: Roof replacement, placement of a new ceiling and a new shed, inside and outside painting and new floor tiles inside the temple and plates outside the temple.

II. AGHIOS ANDREAS (SAINT ANDREW)

- The marble stairs of all entrances were repaired (donors **Panaghiotis Skiouris** and his wife **Noula**)

- All the entry doors which had rotted were repaired and painted (donors **Frideriki Prekezes**, **Pitsa Prekezes** and **Panaghiotis Koutsogiorgas-Couchel**)
- The central manulet was built and placed at the entrance of the Temple so as not to blacken the hagiographies of the candles flame (donor **Frideriki Prekezes**)
- The carpets were cleaned (donor **Toula Diantzikis**)
- Two new carpets were purchased, the cost of which was covered by ourselves, each having their own capacity, as well as by other women's offers,
- Support railings were placed on the stairs of the main entrance. The cost was covered by the first drawing made on the St. Andrew's celebration in 2016 and the other small dots. After that an anonymous patriot, placed the railings along the road leading to the courtyard of the Temple (behind the Community Building).

III. AGHIA (SAINT) PARASKEVI

- Railings for elder people were built, the cost covered by our expenses and
- the carpets were cleaned (donor **Ms Toula Diazikes**).

We should mention here that **Ms Dina Christopoulos**, on her own initiative and at her own expenses, without our own participation, repaired the roof of the Temple and placed the railings on the road and on the steps leading to the cemetery, We would like to thank her very much.

IV. AGHIOS IOANNIS (SAINT JOHN)

The roof was repaired at a cost of € 700 – by our expenses (not yet been paid of).

The temple was painted:

- externally (the cost of the materials was donated by **Ms Voula Kopsiaftis** and the works have been done from the brothers **Demosthenes** and **Panagiotis Kolovos** free) and
- inside, the work that was undertaken by **Constantine Kolovos**, who planted oleanders in the courtyard of the temple.

V. AGHIOS DIMITRIOS (SAINT DEMETRIUS)

- The floor at the entrance of the temple was repaired and
- all the broken glasses of the windows were replaced.

VI. AGHIOI (SAINTS) TAXIARCHES

- The door was repaired,
- The windows' broken glasses were replaced,
- a carpet was purchased (donor **Ms Alkistis Ardamis**) and
- the outdoor area was planted with trees by **Ms Nina Ardamis-Koutsogiorgas**.

VII. PANAGHIA-KIMISIS THEOTOKOU (ASSUMPTION OF HOLY MARY)

Mr Spyrakis the contractor, who repaired the St. Andrew's marble stairs, was polished on the floor tiles.

WHAT HAS TO BE DONE

The pending and the necessary works are:

I. AGHIOS ANDREAS (SAINT ANDREW)

This splendid church, our treasure, is in imminent danger; the roof tiles have been destroyed for the most part, allowing for excessive dampness inside the church which can be harmful to the icons, while they also pose a significant risk of injury. Admittedly, this is big project that goes far beyond our financial capability, as we need to build a new roof completely from scratch. We estimate the cost to a minimum amount of € 150,000. We asked Ms. Tzaneteas, Deputy Regional Governor to financially support the project, but unfortunately, she stated very clearly that she has no funds available for this. Therefore, our only resource is our compatriots, near and far.

II. AGHIOI (SAINTS) ANARGIRI

The problem is great as the walls, the iconostasis and the floor have been severely cracked, possibly from tree roots. For the work to be done, we are in contact with a competent engineer who has drawn up a technical report of the necessary work and has already been promoted in the State officials. There are already donations amounting to € 2,300 - for the works, by **Ms Maria Diatzikis**, **Ms Amalia Koutsogiorgas**, **Mr. Georgios Vastis** and **other anonymous donors**. In addition, our fund now has a balance of € 342-.

III. PANAGHIA-KIMISIS THEOTOKOU (ASSUMPTION OF HOLY MARY)

There are serious damages to the icon temple.

IV. AGHIOS DIMITRIOS (SAINT DEMETRIUS)

There are damages to the dome and the walls inside the temple, possibly from humidity.

In all chapels, doors and windows need maintenance, while there are damages from the humidity everywhere. Also, we would like to thank everyone, present and absent, who support us and help us. Finally, let me introduce you to the core of our team: **Ms. Alkistis Ardamis**, **Ms. Evgenia Kourvaris**, **Ms. Anna Kolovos**, **Ms. Maria Kolovos**, **Ms. Vassiliki Yfantopoulos-Macheras**, **Ms. Panagiota Kyriazis** and of course there are many who help us occasionally and depending on their strengths. Thank you very much, and never to forget our village.

According to Ms. Kiriazis since that speech and during the summer for the Church of PANAGHIA-KIMISIS THEOTOKOU (ASSUMPTION OF HOLY MARY), the following amounts were gathered : **€ 500-**, **US \$ 500-** and **CAN \$ 1,000-**, by anonymous donors. Also, another anonymous donated **€ 400** - and the church' s reredos was repaired, while an amount **€ 400** - also from anonymous was deposited for the AGHIOS KONSTANTINOS (St. Constantine's church) reredos located in the Sakali spring.

THE DANCE

On Saturday, **August 11th, 2018**, in the courtyard of Saint Paraskevi Church – Karyes Primary School our annual summer dance took place. It is an event that has been organized every year for almost two decades. This year despite the dew - since the previous days had enough wind- there was a record in attendance as almost all the Karyates came to revel with their compatriots in a greek "glenti".

The Arachovites-Karyates gathered to meet, dine with the food prepared by the Areti Koutsogiorgas tavern, have fun at the sounds of live Greek music, from the music complex of the Melodia Conservatory of Sparta and our compatriot Andreas. G. Dalakouras and to commemorate young Karyates for their studies and their offer in the village.

On the occasion of the event, the Board of Directors of Karyates Association honored the following compatriots:

- **Mr. Ioannis Pan. Karachalios**, architect engineer, who created the architectural plan for the "Memory and Culture Center of Karyes, Lakonia". At the same time, he completed, free of charge, a plan for the construction of a path that leads to the Caryatids Monument. In his absence, his father, Mr. Panagiotis Karachalios, received his award.
- **Mr. Panayiotis Kyriazis**, who received his Master's Degree in Economics with Honors from Athens University of Economics and Business and has been offered **full scholarships** by top-ranked universities in the US to continue his studies at doctoral level. He has chosen to attend Northwestern University in Chicago, Illinois. In his absence, the award was received by his mother, Ms. Jenny Deli.
- **Mrs. Konstantina Tampaki**, for her master's thesis on the museological study for our association's great-scale goal, namely the "Memory and Culture Center of Karyes, Lakonia". Following is a message from **Dr. Maria Kouri**, Lecturer of Cultural Administration at the Department of History, Archeology and Cultural Resources Management, School of Humanities and Cultural Studies of the University of Peloponnese:

"Dear President of the Karyates Association, Dear Members of the Board of Directors,

As much as I would like to attend this very special ceremony, where Ms. Tampaki was offered an award in recognition of her museological study, other commitments kept me away. Nevertheless, it is my great pleasure to welcome this noble initiative of the Karyates Association to honor our former student and graduate of the University of the Peloponnese on her museological study, which she prepared in the framework of her graduate thesis, under my supervision. This award is a significant moral recognition of the efforts that Ms. Tampaki made, showing sensitivity, love, and great zeal, to design a modern museum that honors the Karyates, but is also

addressed to the whole world, bringing the great history and cultural contributions of Karyes over the centuries to the national and international scene. I wish you from the bottom of my heart to accomplish this very important project successfully. I am confident that Ms. Tampaki will be on your side, deservedly assisting you with her scientific knowledge, creativity, and experience in the construction of the new museum.

Congratulations to your association and Ms. Tampaki and good luck with your precious project! "

THE CARYATIDS MONUMENT: The modern Karyates honor the Ancient Karyes

Throughout the summer time, our compatriots continued with their generous monetary contributions towards the maintenance and completion of the Caryatids Monument. Their response to our association's appeal has been really touching. At the start of this project, many said it would not be successful. But this was not the case. They underestimated our love for our village. The association's goal was not to cover the cost by big amounts of money contributed by a few people, to the contrary, we would like to see smaller amounts contributed by more, so that everyone could participate in the effort and feel proud to say: *"I, too, contributed my share in the maintenance and completion of the monument!"*

So, here we are, just a step away from reaching our goal! The restoration works are well underway and expected to be finished before winter hits. The amount raised comes to € 7,500, while an amount of approximately € 3,000 is still pending. As we have repeatedly stated, all monetary contributions will be announced on our website www.karyes.gr, Facebook, and our association's Newsletter.

During the summer time there were following contributions:

- Therore Mentis € 50
- Helen Fotiou € 20
- Nina Ioannides € 180
- Takis Trakas € 50
- Teti Leventakis € 500
- Arthur Bill Kakaris € 100
- Toula Pitsios € 85

A RAINY BUT GREEN SUMMER

Nature, scientists say, always has a way to find its balance. Based on this theory, after a mild winter and a dry spring, the summer of 2018 was characterized by unprecedented rainfalls across Greece. In July, for the first time in decades, the rains were not only numerous but also intense. More specifically, a rather small heat wave between July 20th and 24th was followed by a five-day rainy period which lasted from July 25th until 30th, where we counted a total of more than ten rainstorms! Excluding the day of the festival, July 27th, when it rained twice in the afternoon only, all the other days, storms began early before noon time and lasted until late in the afternoon. There was also a hail-storm, luckily not destructive, on the day of the celebration of Aghia Paraskevi, July 26th, at noon, and a terrifying storm on Sunday, July 29th, in the afternoon. It is very important to mention that the waters of Deiros river (Panagia's river), which had been dry since Easter time, rose dangerously and the flow was such that the road to the village of Aghios Petros became very dangerous for a while.

August is, admittedly, a month with frequent rain showers, which we have gotten used to. Therefore, we were not surprised by the several rain showers, especially during the afternoon hours, throughout the month. As a result, the water level in the water reservoirs, which had been alarmingly low in early July, rose and there were even times of overflow. The pictures depict the beautiful, green landscape.
